Yellow RAL | 1003

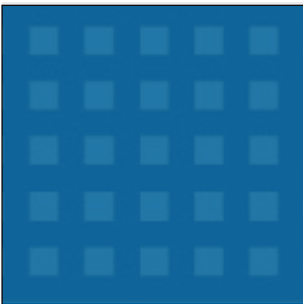

Green | RAL 6001

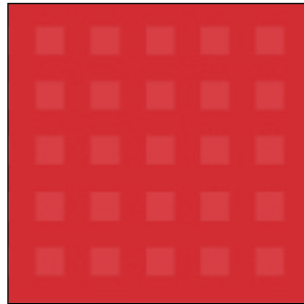

Orange | RAL 2003

Black | RAL 9004

Blue | RAL 5017

Red | RAL 3020

FRP Open Grid Decking Colours

Fibre Reinforced Plastic (FRP) Open Grid Decking is a modern solution for pedestrian and/or cycle bridges, boardwalks and access structures where residual dirt, sand, debris or water is a concern.

It is manufactured from anti-corrosive materials so is suitable for many environments. As standard our FRP decking has a gritted surface for excellent slip resistance and its 19mm square open aperture delivers self-cleaning abilities and allows water to pass through.

Talk to your local project consultant for more information.

*When selecting colours it is important to realise that printing and computer screens may not accurately represent the intended colour accurately and should be used as a guide only.

With over 30 years' experience delivering public infrastructure around Australia, Landmark is the ideal partner for design, manufacture and installation of open space furniture / structures.
