

Powder Coating Colour Chart

Dulux[®]
POWDER & INDUSTRIAL COATINGS

Being the most economical, longest lasting and most colour-durable quality finish available, powder coating offers the best solution for finishing steel and aluminium products.

Landmark uses the **standard colour range** and high value **premium colour range*** within the Dulux[®] catalogue of colours and finishes.

For high corrosive environments, or specific colour requirements, we suggest 2-Pac Epoxy

paint over hot-dipped galvanised steel (see Landmark's 2-Pac Epoxy Colour Chart for more details).

When selecting colours be aware that printing and computer screens may not accurately represent the intended colour accurately and should be used as a guide only.

* Can incur a higher cost. POA.

With over 30 years' experience delivering public infrastructure around Australia, Landmark is the ideal partner for design, manufacture and installation of open space furniture / structures.

The **Armourspray®** AG range of powder coatings offer exceptional resistance to abrasion damage and allow removal of graffiti. Pentel and aerosol paint graffiti can, in general, be removed by a recommended solvent wipe of 1-2 rubs. The range is suitable both for exterior and interior exposure environments.
